## Elevated Design for Modern Living

The Milan 257 is a stylish split-level design that makes the most of sloping blocks, delivering two levels of well-zoned, modern living. With multiple living areas, including a separate lounge and media room, this home offers the flexibility families need to relax, entertain, and unwind.

The open-plan kitchen and meals area sits at the heart of the home, complete with a walk-in pantry and seamless flow throughout. A study near the entry provides the option for a home office or guest room, while upstairs, four bedrooms, including a spacious master suite, create a private retreat for the whole family.

Designed for both comfort and functionality, the Milan 257 is a home that adapts to your lifestyle.
